

POLICY: SAFEGUARDING

Reviewed: September 2020

Introduction

The School fully recognises the contribution it makes to Child Protection. UAE Federal Law No. 3 of 2016 concerning children's rights, also known as 'Wadeema's Law', protects children against all forms of negligence, exploitation, and physical and psychological abuse. All staff are committed to safeguarding and promoting the welfare of children, thereby protecting them from such abuse. This policy exists to protect children of all ages from these four main kinds of abuse.

What is Abuse?

The ill-treatment or neglect of a child that causes injury, suffering or distress is abuse.

- **Physical Abuse** may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to the child. Fictitious illness by proxy may also be considered as abuse.
- **Emotional Abuse** is the persistent emotional ill-treatment of a child, causing severe and persistent adverse effects on the child's emotional development. It may involve conveying to children that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may feature age or developmentally inappropriate expectations being imposed on children. It may involve the exploitation or corruption of children, or causing children to feel frightened or in danger.
- **Sexual Abuse** involves forcing or enticing a child to take part in sexual activities, whether or not the child is aware of what is happening. The activities may involve physical contact, including penetrative and non - penetrative acts. They may include non-contact activities, such as involving children in looking at or being part of the production of pornographic material, watching sexual activities, or encouraging children to behave in sexually inappropriate ways.
- **Neglect** is the persistent failure to meet the child's basic physical and/or psychological needs, which is likely to result in the serious impairment of the child's health or development. It may involve the parent or carer failing to provide adequate food, shelter or clothing, failing to protect the child from physical harm or danger, or failing to ensure access to appropriate medical care or treatment. It may also include the neglect of, or unresponsiveness towards, a child's basic emotional needs.

Further policies contribute to the total care of children:

- Various Health/Medical related policies

The Three Main Elements to the Safeguarding Policy

- **Prevention** through the teaching and pastoral support offered to children. The promotion of a positive, supportive, and secure environment that encourages self-esteem and values all individuals.
- **Procedures** for identifying and reporting cases, or suspected cases, of abuse. The promotion of observance and a sense of responsibility, to report all concerns regarding a pupil's safety or welfare to the designated person for child protection, or in the absence of this person, to one of the designated persons detailed on the front of this document.
- **Support** for children and staff who may have been abused.

This policy applies to all staff and volunteers working in the school and governors.

Prevention

The school recognises that high self-esteem, confidence, supportive friends, and good lines of communication with a trusted adult can help prevention.

Therefore, the school will:

- Share the Safeguarding Policy with all parents (via the website) and staff members (links to documents provided) and display information regarding safeguarding on notice boards in the staff room, in each classroom and in the school reception areas
- Run an annual Safeguarding and Child Protection orientation session for parents in the first term of the new academic year
- Run an annual parent survey to gauge awareness of CP procedures
- Make children aware of how to report something that makes them frightened or unhappy
- Ensure that children know there are adults in the school who they can approach if they are worried or in difficulty
- Train all staff on the school's safeguarding procedures before they start working with children
- Ensure that the school's Behaviour Policy emphasises the need to support children.
- As per the Social Media Policy, only refer to children by their first name.

Procedures

We will follow, as closely as possible, sound safeguarding procedures as used in the UK, taking into account local procedures and any support agencies that are available and deemed appropriate by the school.

The school will ensure it has members of staff who are nominated as safeguarding persons for each section of the school and who have undertaken appropriate training. The school will acknowledge and provide the appropriate level of support and training required by the post holders.

Support

The school will support the child, parents, teachers and any other party involved with a safeguarding concern. The school will debrief all parties involved and this will be recorded in the child protection and safeguarding file.

The Role of the Designated Safeguarding Lead (DSL)

- a. Ensure that all staff know:
 - The names of the Designated Safeguarding Leads and the Child Protection Team
 - That they have an individual responsibility for reporting child protection concerns
 - The procedures to follow as identified within the school safeguarding policy
- b. Ensure that members of staff are aware of the need to be alert to signs of abuse and know how to respond to a pupil who may tell of abuse.
- c. Ensure that parents have an understanding of the responsibilities placed on the school and staff in relation to child protection, by setting out the school's pastoral role in the prospectus.
- d. Provide safeguarding training for all staff members and support agencies within the school.
- e. Have effective links with relevant local agencies and persons and co-operate as required with enquiries regarding child protection matters.
- f. Keep written records of concerns about children (noting the date, event and action taken), even when there is no need to refer the matter or take it further. Where there is cause to take the matter further, Safeguarding Officers must ensure that the case is discussed with all relevant parties and that there are set procedures for reporting and following up concerns.
- g. Ensure that all records are kept in a securely locked location. Update these records as and when new information or incidents occur. Ensure that respective teachers across the school are aware of any children of concern.
- h. Adhere to the procedures set out when an allegation is made against a member of staff.
- i. Ensure that SLT are aware of and that appropriate checks on all new members of staff and on-site personnel.
- j. Ensure that the duty of care towards pupils and staff is promoted by raising awareness of illegal, unsafe, and unwise behaviour and assist staff to monitor their own standards and practice.

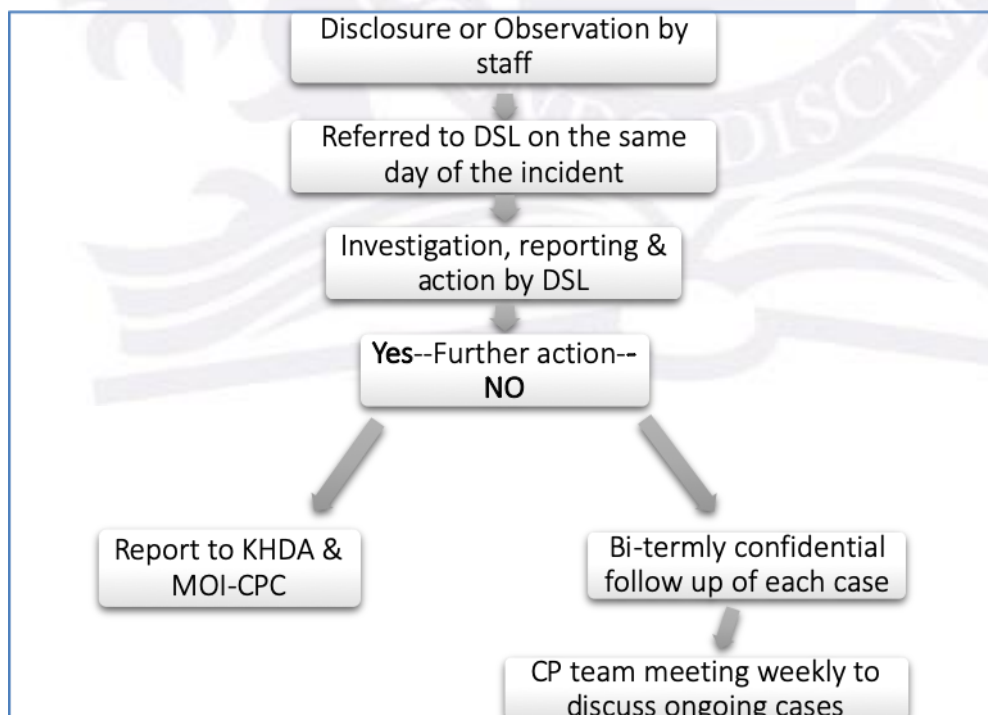

- k. Monitor child protection awareness in the school and ensure that due diligence is given to safeguarding issues.
- l. Safeguarding officers across the school discuss Child Protection matters within the school. The DSL, DDSL and school nurse will meet weekly to discuss Child Protection issues.
- m. Liaise/guide and support staff within their respective areas of the school to ensure that pupils have the correct information with regards to Child Protection and are aware of the many adults that are ready to provide support and advice when it is needed.
- n. Ensure that designated notice boards around the school display names and telephone numbers of DSLs and related persons who can be contacted in an emergency, or if a child or member of staff feel the need to raise a concern or seek help.

Reporting a safeguarding concern – Flow chart

As a school, in accordance with UAE Child Protection Law, we are obliged to report safeguarding concerns. A case should only be reported by the Headteacher or the Deputy Head.

The case will be reported to the Child Protection Centre (CPC) 800 988.

Allegations involving school staff

Allegations against staff, volunteers or the DSL should be reported to the Headteacher.

Any member of staff who has reason to suspect that a child may have been abused by another member of staff, either at school or elsewhere, must immediately inform the Headteacher. A record of the concerns must be made, including a note of any witnesses to the incident or allegation.

In the event of an allegation against the Headteacher, this should be reported to the safeguarding governor.

Independent Safeguarding Authority (ISA) and relevant local authorities

The school will report to the ISA and any relevant local authorities within one month of leaving the school any person (whether employed, contracted, a volunteer or student) whose services are no longer used because they are considered unsuitable to work with children.

Guidelines for staff

This guidance is issued within this policy for the protection of both staff and children. In education, all relationships are founded on trust. It is vital for those in positions of trust to understand the power this gives them over those in their care, and the responsibility they must exercise as a consequence.

Keeping yourself safe

- Do not let suspicion, disclosure or allegations of abuse go unreported or unrecorded.
- Do provide access for children to talk to you about any concerns they may have.
- Plan activities that involve more than one other person being present, or are at least within sight or hearing of others.
- If it is necessary to speak to a child alone, always inform another member of staff where you are. It is advisable not to close the door of the room.
- Recognize that caution is required in sensitive moments of counselling on matters such as bullying, bereavement or abuse.
- On residential trips, children and staff must have separate sleeping accommodation.
- Avoid situations that compromise your relationship with children and are unacceptable within a relationship of trust.
- Take pictures of pupils from a school camera/iPad for school purposes only. Do not take pictures of pupils from your personal phone and never post pictures online.
- During coaching of sport or instrumental teaching, where a degree of physical contact may be inevitable, staff must be particularly aware that this should only be used to develop skills/techniques or to treat or prevent injury.

FOREMARKE

- Staff are advised to avoid transporting a single child in a vehicle except in case of an emergency.
- Remember that someone else may misinterpret your actions, no matter how well intentioned.
- Do not have inappropriate physical or verbal contact with children.
- Avoid suggestive remarks or gestures, even in jest.
- Do not jump to conclusions about others without checking the facts.
- Do not rely on your good name to protect you.
- Do not believe “it could never happen to me”.

This is in compliance with:

- UAE Federal Law NO. 3 of 2016 on Child Rights
- UAE Federal Law No. 3 of 1987 on Penal Code
- The DFES Guidance, *Safeguarding Children and Safer Recruitment in Education (UK)*

FOREMARKE

Physical contact

Appropriate touches include:

- Providing comfort for a distressed pupil
- When a pupil is being congratulated or praised (on shoulder)
- Demonstrating how to use a musical instrument/ hold a pencil correctly
- Demonstrating exercises or techniques during PE
- To give first aid
- Toilet accidents

Important Reminders

- Never assume that a child will accept a touch as a friendly gesture.
- Children come from different backgrounds and cultures with different sensitivities to touch and physical space.
- Inappropriate physical contact is never permitted

It is not recommended to initiate physical contact and members of staff should use professional judgment and may be held accountable for their actions.

Good practice is to always inform the line manager following close contact with a pupil.

Foundation stage children

First School Experiences can be very upsetting for some children. Occasionally children may feel like they want to go home. They may try to leave the classroom. The main aim of the teachers is to:

- Protect the children from harm
- Provide comfort (if the child is happy with this)

Lost child procedure

In order to minimise the possibility of a child getting lost, all staff need to be vigilant in maintaining a check on the number of children in their care.

This means that, in addition to the statutory keeping of attendance registers, headcounts after break times and at the beginning of lessons should automatically take place.

The practice will ensure that if a child should go missing, it is quickly discovered.

In the event of a missing child, the Receptionist/Teacher should report the loss immediately to the SLT, Head of Year and Facilities Management.

This will include any or all of the following:

- a. Alert other members of staff and deploy appropriately whilst maintaining adequate supervision of the remaining children
- b. Question children
- c. Locate the child's photo on Shared Drive and Conduct thorough search of the buildings and outdoor area
- d. If the child has not been found within 10 minutes:
 - HT to phone Parents
 - DHT to phone Police to notify and seek guidance
 - DHT to phone KHDS for guidance
- e. Continue to search involving as many adults as possible, opening up the area and keeping in touch by mobile telephone

Late collection

Please refer to late collection policy.

Supporting the pupil at risk

The School recognises that children who are abused or witness violence may find it difficult to develop a sense of self-worth and to view the world as benevolent and meaningful. They may feel helplessness, humiliation and some sense of self-blame. The school may be the only stable, secure and predictable element in the lives of children at risk. Nevertheless, when at school, their behaviour may be challenging and defiant and they may be withdrawn.

The School will endeavour to support the child through:

- The content of the curriculum to encourage self-esteem and self-motivation
- The school ethos which promotes a positive, supportive and secure environment and gives children a sense of being valued
- The school's Behaviour Policy, which emphasises the need to support children. All staff agree on a consistent approach which focuses on the behaviour of the offence committed by the child, but does not damage the pupil's sense of self-worth
- Liaising with other agencies who support the pupil such as the medical profession
- Keeping records and notifying the Headteacher and any other relevant parties as soon as there is a recurrence of a concern

When a pupil with child protection concerns leaves the school, we will transfer requested information to the next school.

FOREMARKE

Supporting Pupils of Determination (POD) and children with additional vulnerabilities

People of determination and children with additional vulnerabilities can be more vulnerable to exploitation and abuse and should have enhanced access to support systems. They may be more isolated from their peers and may find it difficult to express concern. No concern should be overlooked or passed off as a symptom of additional vulnerabilities, including (not an exhaustive list):

- Communication
- Toileting
- Understanding right and wrong
- Physical build
- Unusual or over-physical attachments to staff members and peers

Staff must be hyper-vigilant to the needs and concerns of these children who are among the most vulnerable.

Additional barriers can exist in identifying neglect and harm for some groups of children.
